Subject: Municipality of the District of Yarmouth: Deer management & I expect a reply this time

This is an enquiry email via <https://munyarmouth.ca/> from:

Kevin Chisholm < >

Dear Council:

I would like to know what Council is doing about the deer overpopulation problem. Are you working with town council on it? Are you studying it on your own?

We are getting quite fed up with trying to beautify our property just to have everything eaten. We may as well pull everything out of the ground and just grow grass.

Maybe we should stop building sidewalks and put deer fence around everyone's properties.

Please let me know what Council is doing on this issue.

Kevin Chisholm
