Schedule A

Posting of civic number signs

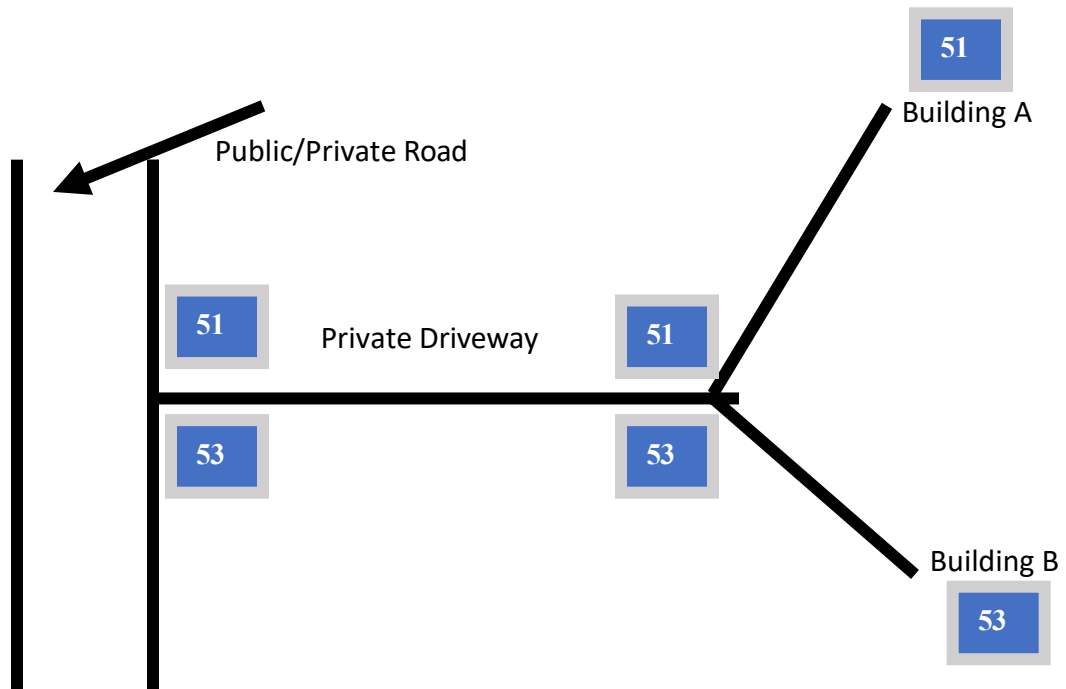

Posting of Civic Numbers

- Civic number signs shall be posted in a location and in a manner so that they can be clearly seen from both directions at least 15m (49 ft), of the road.
- The civic number sign shall be displayed on the same side of the road as the building or property is located, and within 3.5 metres (11.5 ft) of the driveway leading to the developed property.
- The posted civic number sign should be no more than 3.5 metres (11.5 ft) from the closest edge of the traveled portion of the road which forms part of the civic address for the building or lot.
- Civic number signs shall be displayed horizontally using standard Arabic numerals (0, 1, 2, 3, 4, 5, 6, 7, 8, & 9), left to right.
- The size of the civic numbers shall be at least 7.5cm (3 inches) in height and 2.5 cm (1 inch) in width.
- The color of the numbers shall be white on a blue background and reflective.
- The bottom of the numerals shall be located at an elevation of at least 1.2 meters (4 ft) above grade level with the road.
- In the event that the building is located within 6m (20 ft) from the closest edge of the traveled portion of the road, the civic number sign may be posted perpendicular to the building provided it is visible from both directions.

Schedule B

Private driveways with more than 1 civic address

- All civic number signs must be displayed where the private driveway meets the public/private road.
- All civic number signs must be displayed where the private driveway branches off to the individual buildings or lots
- The civic number signs may be displayed on each building or lot
